To Hiring Manager,

I would love to show you what I can bring to the Mid-level Full Stack Engineer role at Rallio.

I've been a web professional for well over 10 years, spending the last 9 years at Sonnax Transmission Company. In that time, I've gone from print design — creating ads, catalogs, brochures and more — to back end development writing and testing code. My wide range of experience helps me work on sites from the database to the stylesheet. I also excel on projects where code and design intersect, such as a visual interactive part finder or generating data formatted for print catalogs.

I would be happy to speak with you by phone or video call about my qualifications. You can reach me at 802-289-3349 or kristin@kristinmerbach.com. I hope to hear from you soon.

Sincerely,

*Kristin Merbach*
